Professional IT Assessment Services

Providing Deep Insights and Strategic Guidance to Optimize IT Operations for Law Firms

For more than 10 years, Rize Technologies has been laser-focused on providing a comprehensive suite of managed IT services for law firms of all sizes. This includes IT infrastructure upgrades, migration to cloud services, securing remote workers, strengthening cybersecurity defenses, deployment of law practice management platforms to optimize business operations, and much more.

As experts in the legal market, we recognize the value that law firms deliver to clients, as well as your commitment to ensure lasting client relationships. Your firm deserves the same commitment from a Managed Service Provider (MSP). Which is why the team at Rize Technologies always puts customers first, and always delivers unmatched “white glove” service to every law firm we work with.

One of the services our customers really appreciate is our comprehensive IT Assessment Service. Rize Technologies offers this service at zero cost and without any obligation to potential new clients who might consider choosing us as their trusted MSP.

This complimentary service consists of two components:

- **A Rapid Assessment** that analyzes nine critical areas of your IT operations, including infrastructure, mobile devices, telecommunications, endpoint security, and even dark web monitoring.
- **A Legal IT Assessment**, where we'll evaluate the applications, vendors, and support services you rely on to manage and grow your business.

The entire process can be done quickly and remotely, without any disruption to your network or your business.

Following the assessment, we'll schedule a 30-minute call with you to share the report, discuss key findings, and answer any questions you might have. Based on the results of the report, we might also provide your firm with a project proposal to address any specific IT issues that could be impacting the performance of your business.

We would obviously appreciate the opportunity to demonstrate our value as your MSP partner. However, to be clear, there is no cost or obligation whatsoever to work with Rize Technologies.

We encourage you to take advantage of this complimentary IT Assessment Service. To schedule a time that is convenient for you, please use the calendar link below.
